Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. The drawings were received on April 28, 2005. These drawings are acceptable.

Claim Objections

2. Claims 1, 3-4 and 6-11 are objected to because of the following informalities:

Claim 1, line 1: "transmission of information" is suggested changing to "transmission information of a signal", so that the "a signal" recited in claims 7 and 8 has corporation and relation to the independent claim 1; line 14: "the binary transitions" should be "binary transitions"; line 16: "a half duration" should be "the half duration".

Claim 3, "electrical or optical the support"" should be "the electrical or optical support".

Claim 6, line 2: "transmission of information" should be "transmission information", "MIDI" should be "Musical Instruments Digital Interface (MIDI)", as the abbreviation is recited in the independent claim and its dependent claims first time, the abbreviation needs to be spelled out; line 3: "original data bits in the expanded" should be "data bits in an expanded".

Claim 7 & Claim 8, line 2: "a signal" should be "the signal".

Claim 10, line 18: "said circuit" should be "said circuitry".

Claim 11, line 18: "said circuit" should be "said circuitry"; line 19: "said message" should be "said serial message"; line 24: "MIDI" should be "Musical Instruments Digital Interface (MIDI)".

Claims 4 and 9 are dependent on the objected claim 1.

Appropriate correction is required.

Allowable Subject Matter

3. Claims 1, 3-4 and 6-11 would be allowable if rewritten to overcome the objection(s) set forth in this Office action.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record fails to teach or suggest, alone or in a combination, among other things, at least a process for transmission of information in an existing UART system and its arrangement as a whole, the combination of elements and features, which includes the reduced data bits being reduced by 50% and the reduced stop and start bits reduced by 25%; keeping the half duration of all reduced bits to the same place as they were in the unchanged message wherein the bits are not reduced; keeping the total duration of the message with the reduced bits and additional insertion bits as the total duration of the message with no reduced bits, the message coded according to the MIDI standard and UART standard.

Conclusion

Art Unit: 2637

4. This application is in condition for allowance except for the following formal matters: the objections set forth in this Office Action.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

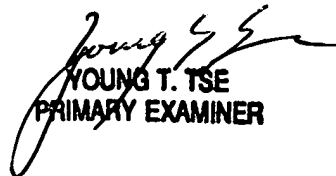

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
